

Customer Journey Map

Date	27 June 2026
Team ID	xxxxxxx
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 – User Input	Stage 2 – Emotion Analysis	Stage 3 – AI Learning Support
Actions <i>What does the customer do?</i>	- Opens the application - Enters learning problem or question - Clicks Analyze Emotion	- Reviews detected emotion - Compares BiLSTM and BERT predictions - Reads emotion analysis	- Receives personalized learning guidance from Gemini AI - Reviews recommendations - Continues learning
Touchpoint <i>What part of the service do they interact with?</i>	- Streamlit User Interface - Text input field - Analyze button	- Emotion Detection Engine - BiLSTM Model - BERT Model	- Gemini AI Response Panel - Analytics Dashboard - Session History
Customer Thought <i>What is the customer thinking?</i>	"Will the system understand my problem?" "Can it detect how I feel?"	"Is the detected emotion correct?" "Why am I feeling confused?"	"This guidance is helpful." "I understand the topic better now."
Customer Feeling <i>What is the customer feeling?</i>	Curious, Hopeful	Confused, Curious	Confident, Motivated

Process Ownership <i>Who is in the lead on this?</i>	User / Streamlit Interface	Emotion Detection Engine (BiLSTM & BERT Models)	Google Gemini AI & Streamlit Application
Opportunities <i>How can we improve this stage?</i>	• Improve user interface and user experience. • Add multilingual support. • Enable voice-based text input.	• Improve emotion detection accuracy. • Support mixed emotion detection. • Optimize model performance and processing speed.	• Provide personalized study plans. • Store user history in a database. • Deploy the application on the cloud. • Add analytics dashboard and progress tracking.
